

T-Shirt with decorative print and embroidery design

## PLAY IT. FEEL IT. ROCK IT.

As a musician, you can't just wear anything. Festivals rain or shine. Guitar solos on rough stage floors. This is when you need something tough to wear!

And this is exactly why we made doubly sure we selected only really tough and durable fabrics for the new limited Passion! Collection.

Being musicians ourselves, we have added some great extras to our new collection. Additional features that you just don't find with regular clothing.

For example, there's the inside pocket for a Leatherman multi-tool featured in our soft shell jackets. Or the miniature plectrum pocket. And the mobile phone pocket of course features a cut-out for the headphone leads.

The Passion! Collection is now available in the Thomann Cyberstore and of course in our shop in Treppendorf. Play It. Feel It. Rock It.

### Lost-and-Found Service

Who doesn't have a favourite jacket which has a story to tell? Losing such a jacket is an awful thing ... Because it not only means losing the countless memories the jacket contains, but also any important papers and documents.

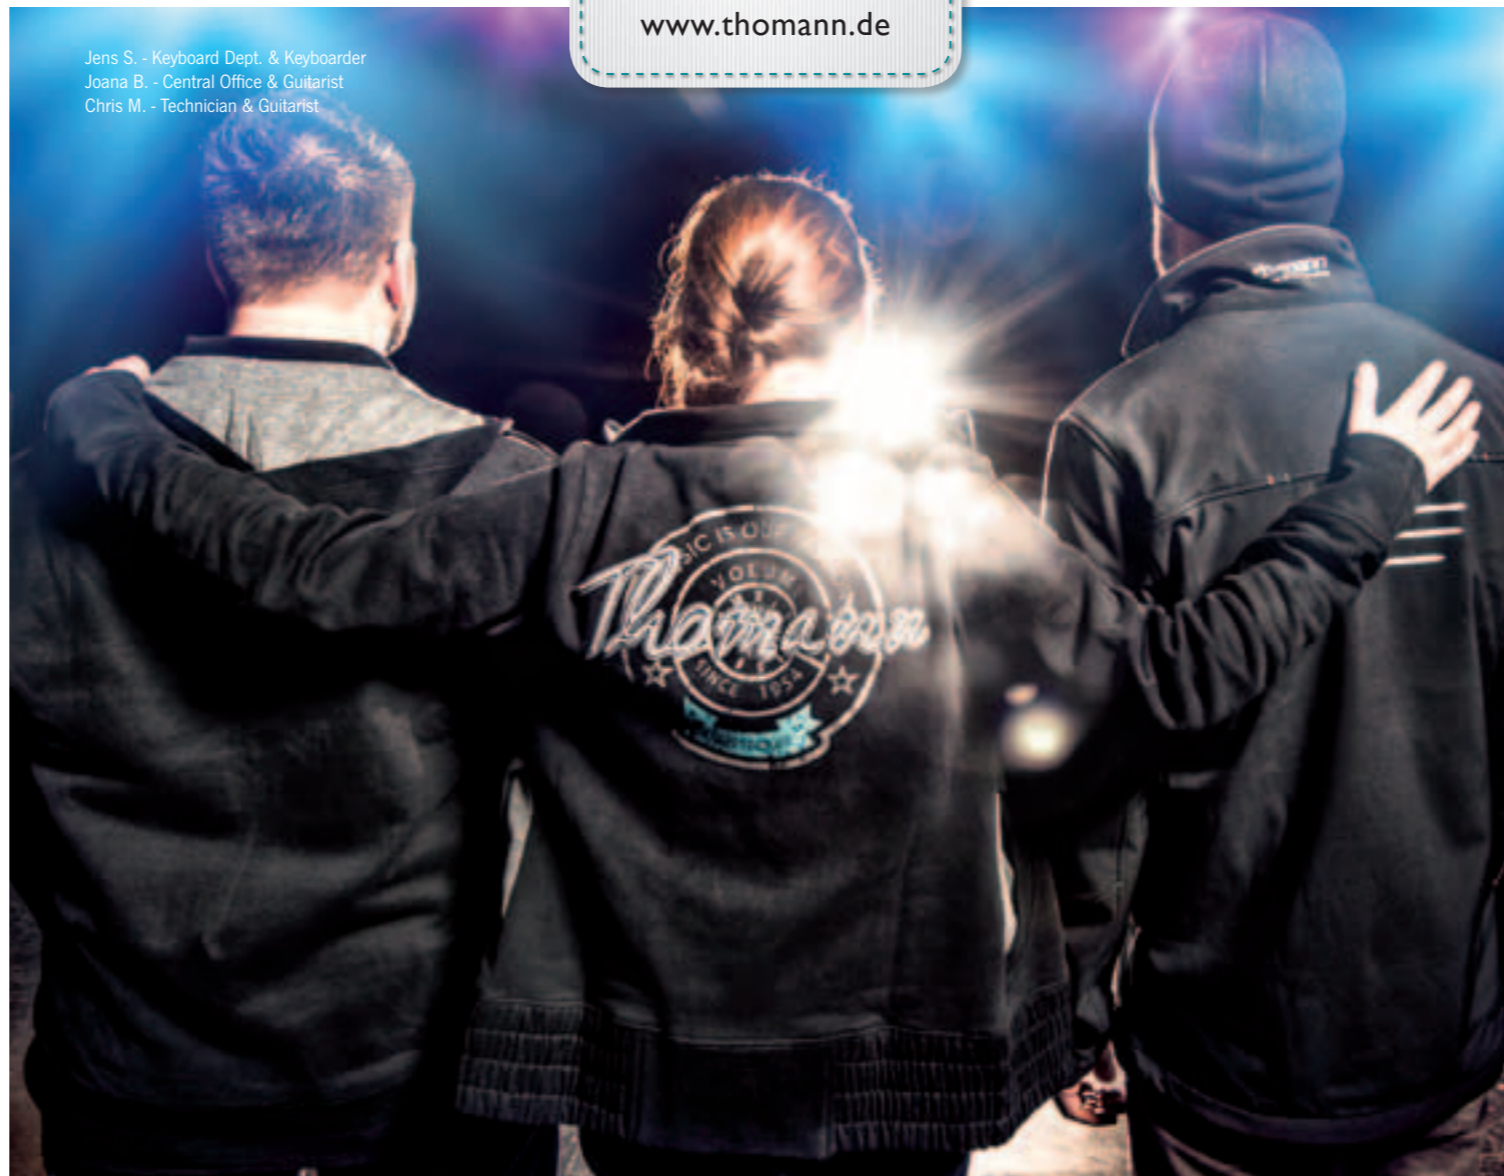

This is why every soft shell jacket features a „Jacket Found?“ patch with an individual customer number and the Thomann phone number. A single call by the finder is all we need to have the jacket collected and sent it to back you – free of charge!

Of course you may want to wear the Passion! Collection simply because you really like the smart design. Our models – Joana from Central Office, Chris from the Technical department and Jens from Keyboards – definitely make a striking impression: thanks to them once more for their great work in the shoot!
